

CICON
CIVIL CONSTRUCTION CO.

About Us

CICON is a leading general contractor headquartered in the Arab Republic of Egypt. Since its establishment in 1997, the company has successfully delivered numerous large-scale turnkey projects for a wide range of prestigious clients. Over the years, CICON has built a strong reputation across multiple sectors, including but not limited to:

- **Airport Terminal Buildings.**
- **Hotels & Hospitality Developments.**
- **Commercial Buildings, Retail Centers & Malls.**
- **Residential Resorts & Compounds.**
- **Facility Management Services.**
- **Administrative & Office Buildings.**
- **Industrial Projects.**

CICON's commitment to delivering projects with superior quality, on schedule, and within budget—while maintaining outstanding Health, Safety, and Environmental standards—has positioned the company as a recognized and trusted name within Egypt's construction sector.

In response to Egypt's growing infrastructure demands and the expansion of new national developments, CICON has continued to invest strategically in its resources. This includes enhancing its operational capacity to meet international standards and upgrading its fleet of equipment to prepare for an even broader range of upcoming projects.

Chairman's Message

CICON Civil Construction Co. has consistently taken a leading role in general contracting, with an unwavering commitment to Quality, Health, Safety, and Environmental standards. Our success is built on a culture of mutual trust, transparency, accountability, and discipline among our employees.

To meet the growing demand for diverse construction projects, CICON has invested in a highly qualified senior management team and world-class equipment, enabling us to execute large-scale, complex projects with confidence.

Proud of our achievements, we remain committed to enhancing our capabilities and upholding integrity, striving for excellence in every aspect of our work.

Chairman

Mohamed M. El-Helaly

Vision

CICON was established in late 1997 with a clear and unwavering objective: achieving the highest level of client satisfaction. From our earliest projects, our continuous growth and rapid expansion highlighted the need for a comprehensive Quality Plan that ensures our standards remain consistently exceptional.

This Quality Plan defines the Quality Management System applied across all company departments and project sites. It sets out how quality will be achieved, controlled, assured, demonstrated, and managed, ensuring that every stage of work upholds our commitment to excellence.

Through this approach, CICON consistently delivers top-tier construction services that meet—and often exceed—our clients' expectations.

Mission

Our mission is to deliver high-quality construction solutions that meet our clients' needs while maintaining strict adherence to safety, sustainability, and cost efficiency. We strive to execute every project with precision, integrity, and reliability, ensuring long-term value and contributing to the continuous development of Egypt's Constructions.

Clients

CICON has successfully associated with many prestigious clients from different industries such as:
